Multimar 36B | ID/OD Bench Comparator

The Multimar 36B series is a versatile bench comparator for use at the point of manufacture to check either ID's or OD's.

- Frictionless reed-spring (pantograph) motion transfer for repeatability
- Gaging pressure is adjustable from 0 - 35 N / 0 - 8 lb
- Adjustable base: gage can be positioned on any angle from horizontal to vertical
- Reverse the top-plate to change from ID to OD
- Choice of top plate allows for 2-point or 3-point measurement
- Supplied with JW-9 Jaws

"T"-plates give a diameter reading directly across the diameter. A third contact may be used as a side-stop or centralizer

"V"-plates are self-centralizing. Three jaws are used and the measurement is of the distance between the sensitive contact and the chord formed by the two reference contacts.

Order No.	Details	OD Measuring Capacity	Resolution	Model	List Price	Promo Price
2050643	T-Plate ID capacity 19 mm - 89 mm / 0.75 in - 3.50 in	T-Plate OD capacity 6 mm - 127 mm / 0.25 in - 5.0 in	Dial indicator - 0.0001 in	36B-10	\$3,110	\$2,500
2050645	V-Plate ID capacity 21 mm - 117 mm / 0.81 in - 4.625 in	V-Plate OD capacity 8 mm - 127 mm / 0.312 in - 5.0 in	Dial indicator - 0.0001 in	36B-19	\$3,910	\$3,000
2061657	Both as above	Both as above	Digital indicator - 0.0005 mm thru 0.01mm / 0.00002 in thru 0.0005 in	2061657	\$4,130	\$3,300
