

PRODUCTION
ESTD SERVICE CO 1952

ABOUT US

The Production Service Company (PSCo.) is a full-service provider of precision measurement solutions. Our product line-up includes the industry's most elite manufacturers of high-accuracy equipment and tools available. Whether your application requires a dimensional measurement system loaded with the finest technology or the reliability of gaging that can manually deliver consistent results day-in and day-out, we can help you discover a solution that meets your functional and financial needs.

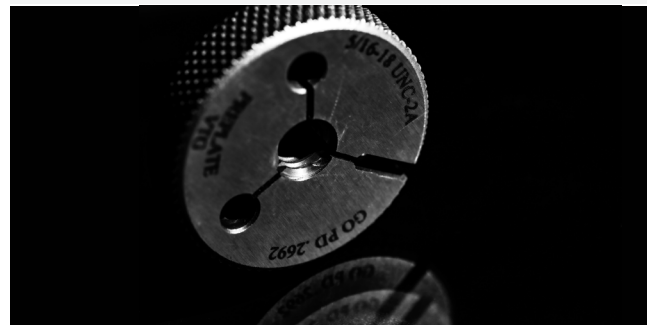

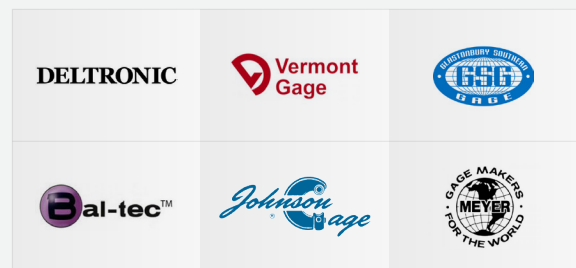

METROLOGY SYSTEMS

Optical Comparators (New and Refurbished), Digital Comparators, Vision Systems (LFOV and Standard), Multi-Measurement Systems, Shaft Measurement, 3D Scanners, CMM's (New & Refurbished), Microscopes, Contour Systems, Roundness Systems, Surface Roughness Systems, Gear Measurement, Digital Readouts, Fixturing, Replacement Scales, Comparator Screens, SPC Software, and GD&T Software Solutions

GAGING

Plain Plug & Ring Gages, Threaded Plug & Ring Gages, Specialty Gages, Master Setting Plugs & Rings, Thread & Gear Wires, Gage Balls, Chamfer Gages, Custom Gage Sets, Gage Libraries, Surveillance Products, Taper Gages, Tri-Roll Gages, API Thread Gages, Pipe Thread Gages, Gage Pin Sets, Setting Discs, Carbide Gaging, and Step Gages.

PRECISION MEASUREMENT TOOLS

Height Gages, Calipers, Micrometers, Bore Gages, Concentricity Gages, ID/OD Gages, Depth Gages, Gage Blocks, Digital & Dial Indicators, Test Indicators, Thickness Gages, Groove Gages, Portable Surface Roughness Testers, Air Gaging, Precision Length Measurement, Zero-Spindles, Custom Fixturing, Granite Tables, and Probes

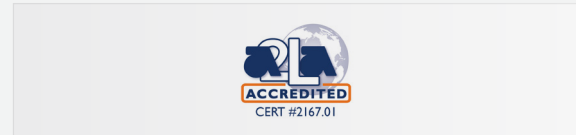

3D PRINTERS

Our benchtop 3D printers support a wide variety of applications including fixtures, jigs, and prototyping with a multitude of filament and resin based materials.

COMPARATOR & VISION SYSTEM - FIELD SERVICE AND CALIBRATION

Our A2LA accredited laboratory will service and calibrate most makes and models of comparators and vision systems. We have all the tools and knowledge to ensure your measurement equipment is operating efficiently. Additionally, our service tracker will ensure that your calibrations are current by sending a reminder two months prior to the expiration of your certification. Please note that our services currently support the Ohio region.

At PSCo., our primary focus is to ensure that all who engage in our business, experience an unrivaled level of service. After all, “service” is our middle name. This mentality has fueled our company since its inception in 1952 and continues to be the foundation of our culture. We are grateful for your interest and invite you to tap into years of industry knowledge and experience by further exploring a partnership with us.

Reach out for further information on any of the products and/or services listed within this offering. Product demonstrations are also available on-site at our office in Brookpark, Ohio or through any of our amazing partners.
